TAROT + ORACLE TREE SPREAD

MID-YEAR READING

The Mid-Year Tree Spread is a comprehensive reading created for reviewing what has been going on for you so far this year - and where you may be headed for the remainder of the year. It is a great spread for just checking in on your life. The reading provides a visual constellation of your life - so you can peek at different areas and see how each are taking shape.

If you've previously had a New Year's reading, a Mid-Year reading helps you to see if the information from earlier has unfolded as predicted. It can also show you the results of any course-corrections you may have made.

We can always change the trajectory of our lives! Readings like the Tree Spread can help you take the temperature of your overall situation and review your life's trajectory. This information can help you make better-informed decisions, so you can shape your life and steer yourself toward the best future possible.

MAKE IT YOUR OWN

You can adapt this spread to fit your needs. Swap out branches that aren't relevant (like changing the "Work" section to "School" or replacing "Home" with "Travel"). You can add or omit branches. Have fun making it your own!

HOW TO SIMPLIFY

Need a more concise reading? Reduce the amount of cards in each branch, even doing just one card per area. If tarot isn't your thing, you can do variations of this reading with oracle cards or Lenormand cards.

Each tarot card helps you to see the story of your life as it is unfolding. The oracle cards illuminate lessons to be learned from your experiences.

HOW TO GIVE YOURSELF A READING

The best time to give yourself a card reading is when you are in a relaxed and open frame of mind. The cards are a tool for communicating with your higher self, your unconscious and your divine support system. Approaching your readings with curiosity and openness makes it easier for your intuition to connect the meaning of the symbols and messages presented to you.

- 1) Relax and shuffle the tarot cards. You can say a little prayer or ask for direct and clear guidance that is for your greatest good.
- 2) Draw tarot cards for each section of the spread. Place each card face-down in the tree formation.
- 3) Next, shuffle your oracle cards and place them face-down in the oracle sections of the spread.
- 4) Read the cards: Each section of the spread is like a mini reading about a particular area of your life. To prevent information overload, reveal and read the cards in sections - one branch at a time (instead of turning over all of the cards at once). Like unfolding your life one chapter at a time.
- 5) Once the entire reading is revealed and you have absorbed the messages of each area, take a moment to look at the reading as a whole. Are there overall themes you see? Is there a strong presence of one tarot suit over another? Are there lots of Major Arcana cards or very few?
- 6) Snap a photo and make any notes so you can refer to the reading later on.

Reading tip: It helps to focus on the theme of each area of your life as you pull cards. The cards tend to respond to what you are thinking about - so if you are pulling cards for money, but your mind is wandering to thinking about something else, the cards will reflect whatever you were actually thinking about. Relaxed intention will give you the most accurate results.
